FIRM OVERVIEW

Charlesbank Capital Partners is a Boston- and New York-based middle-market private equity firm with a long track record of strong investment returns. For many years, we managed an investment portfolio solely for the Harvard University endowment, before establishing Charlesbank as an independent firm in 1998. In mid-2014, we closed our most recent fund with $1.75 billion in committed capital.

Charlesbank’s principals have a long history of working together, a deep specialization in the middle market and a record of solid returns over multiple business cycles. We bring a flexible approach to the structure of each portfolio company investment and are comfortable working in scenarios that are complex or difficult to underwrite.

We typically invest $50 million to $150 million of equity per transaction in companies with enterprise values of $100 million to $750 million. Targets include:

- **PRIVATELY HELD COMPANIES** seeking to accelerate growth through acquisition, facilitate ownership change or recapitalize their balance sheets
- **LEVERAGED ACQUISITIONS** of “orphan” corporate divisions or small-cap public companies lacking strong institutional-investor following
- **SMALL AND MID-CAP PUBLIC COMPANIES** seeking negotiated placements of preferred equity
- **TOP-LEVEL EXECUTIVES** seeking a financial partner to execute an investment thesis in a specific industry of interest

INVESTMENT APPROACH

- Seek companies with a fundamental reason to exist and strong competitive industry position
- Often pursue investments in industries out of favor with broader investment community
- Engage aggressively in complex situations created by corporate carve-outs, timing of management transition, limited availability of high-quality financial information, etc.
- Provide flexible financing solutions: growth equity, structured minority investments, control buyouts and recapitalizations

SCREENING PROCESS

- Weekly firm-wide discussion of all new investment opportunities, resulting in thorough consideration prior to submission of first-round indications of interest and timely feedback to intermediaries
- Investment of significant resources to understand business and industry prior to initial management meetings
- Transparency throughout process, providing management, sellers and their representatives a high degree of certainty

No matter how a transaction originates, we invest only in situations where we have developed a detailed understanding of the business and its industry; share a common vision with management on how to build a better business; and have developed a capital structure that will provide us the operational flexibility to pursue our business plan.
### BUSINESS SERVICES, EDUCATION AND COMMUNICATIONS

**Princeton Review***
Standardized test prep and college admissions consulting company

**Technisource***
Technology staffing and services company

**Universal Technical Institute***
Provider of automotive and other specialized technical education

**WorldStrides***
Provider of educational student travel courses

**Zayo***
Wholesale fiber-based bandwidth provider serving wireline and wireless telecom carriers
